

GL 95

Cleaner for glass dishwashers

Item no. 2110

GL 95 is the highly-active additive for machine glass cleaning

- in beer gardens, bistros, guest houses,
- large kitchens, canteens,
- catering businesses and the beverage industry.

GL 95 convinces the ambitious consumer through

- optimum performance for all water hardness conditions,
- brilliant results at lowest dosages,
- streak- and spot-free shine without wiping.

Areas of application and recommended dilution:

1:200 – 1:500

GL 95 is well suited for all glass dishwashers and all water hardness conditions. GL 95 can be conditionally used for cleaning aluminium dishes. Harmonises ideal with the rinse agents K 20 F (Item no. 2140) and K 50 FN (Item no. 2145).

Depending on the soiling and water hardness, dose 2-5 g GL 95 per litre (0,2 – 0,5% in solution).

Your HWR-partner on site advises you to find the ideal quantity of cleaner in your dishwasher and on our automatic dosage devices.
