

G 20 F

Cleaner for industrial dishwashers

Item no. 2120

G 20 F is the all-purpose and economical cleaner for

- kitchen, coffee and canteen dishes,
- persistent fat, protein and starch deposits,
- problematic coffee, tea and lipstick staining.

G 20 F convinces the ambitious consumer through

- optimum performance for all water hardness conditions,
- brilliant results at lowest dosages,
- streak- and spot-free shine without wiping.

Areas of application and recommended dilution:

1:333 – 1:666

G 20 F is well suited for all types of industrial dishwashers and all water hardness conditions. Harmonises ideal with the rinse agents K 20 F (Item no. 2140) and K 50 FN (Item no. 2145).

Depending on the soiling and water hardness, dose 1.5 – 3.0 g G 20 F per litre (0.15 – 0.3% in solution).

Your HWR-partner on site advises you to find the ideal quantity of cleaner in your dishwasher and on our automatic dosage devices.
