

G 30 F **Cleaner for industrial dishwashers** Item no. 2122

G 30 F is the powerful and highly active cleaner for

- extremely soiled kitchen, coffee and canteen dishes,
- persistent fat, protein and starch deposits,
- problematic coffee, tea and lipstick staining.

G 30 F convinces the ambitious consumer through

- optimum performance for all water hardness conditions,
- brilliant results at lowest dosages,
- streak- and spot-free shine without wiping.

Areas of application and recommended dilution:

1:333 – 1:666

G 30 F is well suited for all types of industrial dishwashers and all water hardness conditions. Harmonises ideal with the rinse agents K 20 F (Item no. 2140) and K 50 FN (Item no. 2145).

Depending on the soiling and water hardness, dose 1.5 – 3.0 g G 30 F per litre (0.15 – 0.3% in solution).
