

## **G 40 CF**

### **Cleaner for industrial dishwashers**

Item no. 2125

**G 40 CF** is the powerful and chlorine-free cleaner for

- extremely soiled kitchen and canteen dishes,
- persistent fat, protein and starch deposits.
- Prevents the dishwasher from calcification.

**G 40 CF** convinces the ambitious consumer through

- optimum performance for all water hardness conditions,
- brilliant results at lowest dosages,
- streak- and spot-free shine without wiping.

#### **Areas of application and recommended dilution:**

**1:333 – 1:666**

G 40 CF is well suited for all types of industrial dishwashers and all water hardness conditions. Harmonises ideal with the rinse agents K 20 F (Item no. 2140) and K 50 FN (Item no. 2145).

Depending on the soiling and water hardness, dose 1.5 – 3.0 g G 40 CF per litre (0.15 – 0.3% in solution).

Your HWR-partner on site advises you to find the ideal quantity of cleaner in your dishwasher and on our automatic dosage devices.
