

## E 50 ZITRO

### Descaling agent on citric acid basis

Item no. 2172

**E 50 ZITRO** is the mild solution for all deposits of calcifications

- in water circulations and devices,
- in sinks, flow regulators, spouts and water nozzles,
- on glass, tiles or ceramic.

**E 50 ZITRO** is designed on natural food-compatible ingredients

- for cleaning coffee-, tea- and ice cream-machines,
- to prevent calcifications in warm-keeping devices,
- as acidic agent in ultrasonic-bath applications.

#### Areas of application and recommended dilution:

**1:3 - 1:5**

**coffee-machines, water-cycling systems, flow-regulators**

Depending on the calcination, let the diluted product act for 10 to 30 minutes, circulate it in water-cycling systems, rinse thoroughly with fresh water after application.

**1:5 - 1:10**

**sinks, fittings, tiles, surfaces made of stainless steel**

Apply the diluted product on the parts, let it act for a few minutes and rinse with fresh water after application.

**1:100**

preventive use in heating basins or in ultrasonic baths

#### Characterisation:

##### Appearance:

Colourless liquid with a mild odour.

##### Ingredients:

Preparation from citric acid, perfume and auxiliaries in water.

Free of AOX, formaldehyde and dye.

##### pH value:

Acidic.

All ingredients are biologically degradable.

This product data sheet has been created according to the most current standard of technology. We do however not guarantee for correctness and completeness. No liability for damages due to improper application. update July 2015
