

isi-2-clean® BBR

Cleaning concentrate for baking trays

Item no. 2200

Isi-2-clean®-BBR is a self-acting cleaner for soaking baths

- removes strongly burnt baking remains,
- penetrates soiling and dissolves it impressively,
- highly concentrated and therefore especially economic.

Isi-2-clean®-BBR convinces the ambitious consumer

- optimal performance in heatable soaking baths,
- outstanding protection on all aluminium and steel parts,
- recommended for cleaning in food industries.

Areas of application and recommended dilution:

1:10

Cleaning of parts e.g. baking trays, pans, tins, smoking rods etc. in soaking baths.

Fill the soaking bath with the 1:10 diluted cleaning solution and leave heavily soiled parts over night at a temperature between 65 – 75 °C. In case of slightly soiling the residence time respectively the temperature may be reduced.

Remove product residues and softened remains after the treatment. Well suited in this case is a strong water jet (e.g. high pressure device).

Characterisation:

Appearance:

Colourless liquid.

Ingredients:

Preparation from tensides, alkalis, phosphates, silicates, corrosion inhibitors and auxiliaries in water.

pH value:

Alkaline.

This product data sheet has been created according to the most current standard of technology. We do however not guarantee for correctness and completeness. No liability for damages due to improper application. update July 2015
