

SAN-PLUS® extra

Basic cleaner for sanitary facilities

Item no. 2700

SAN-PLUS® extra

- powerfully works against thicker limescale,
- loosens both mineral deposits and rust without any problems,
- does not harm tiles, metals and sanitary fittings.

SAN-PLUS® extra

- is used as basic cleaner in sanitary and sports facilities, in swimming baths,
- is suitable as acidic foam cleaning agent in food processing companies,
- has been tested and listed by the Säurefließner-Vereinigung.

Areas of application and recommended dilution:

Undiluted - 1:3

For decalcifying and descaling of flow regulators, toilet tanks, sprinklers...

1:5 - 1:10

Basic cleaning of wetly areas, tiled floors, swimming pools

Dilute the product and apply it by wiping or foaming, let it act a few minutes, rinse afterwards with fresh water. Wet the seams of tiles before cleaning. Does not affect sanitary fittings, tiles and glass. Unsuitable for marble!

1:20 - 1:50

Maintenance cleaning

Depending on the pollution, use daily up to weekly. Check compatibility to toilet lids on an area, which is not visible.
