

HAND-CARE 24

Skin care milk

Item no. 2776

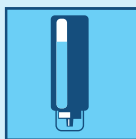

0623

HAND-CARE 24

- protects from skin damage and works against skin aging
- boosts cell regeneration and provides care for rough skin
- is absorbed quickly and makes the skin smooth and soft

HAND-CARE 24

- is the professional care milk for stressed skin
- is used to prevent occupational skin diseases
- is being used in all branches of business

Areas of application and recommended dilution:

Apply HAND-CARE 24 before you start to work, during breaks and after work evenly over the skin. The lotion absorbs quickly without leaving an annoying greasy film.

Our customer advisors will be happy to advise you on suitable dispenser systems as well as on skin protection, skin care and individual skin protection plans for your company.
