

BEAMAT® PROFI 400

All-purpose washing powder, free of phosphate
Item no. 3010

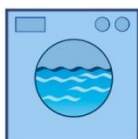

BEAMAT®-PROFI 400 stands for spotlessly clean and perfect-tended laundry

- well suited for all fabrics and washing procedures,
- applicable for all temperatures and water hardness conditions,
- yielding, gentle to fibres and skin-friendly.

BEAMAT®-PROFI 400 effortlessly removes tough stains and soils

- enzymes enhance the removal of starch and protein,
- bleaching agents remove persistent spots of grass, coffee, tea etc.,
- optical-dyes provide a new shine for white and coloured laundry.

Recommended amount for 1 kg laundry:

water hardness	normally soiled items	heavily soiled items	yielding *
soft	22 ml (18 g)	37 ml (29 g)	56 kg
slightly hard	28 ml (22 g)	44 ml (35 g)	45 kg
hard	33 ml (27 g)	55 ml (44 g)	37 kg

* 1 kg BEAMAT®-PROFI 400 is sufficient at least for the indicated quantity of normally soiled laundry, for a load of one main-wash.

A pre-wash is not necessary as a rule, because starch and protein are being dissolved already at 30 °C. Optimal results will be achieved in combination with our fabric softener concentrate BEASOL® W 300 (Item no. 3030).
