

RADOMAT

Laundry detergent, phosphate free

Item no. 3016

RADOMAT

- ensures fiber-deep clean and perfectly cared for laundry
- is well suited for all fabrics and washing procedures
- is applicable for all temperatures and water hardness conditions

RADOMAT

- contains enzymes that facilitate the removal of starch and protein
- removes persistent spots of grass, coffee, tea etc. due to its bleaching agents
- makes white and colored laundry shine by means of optical brighteners

Recommended amount for 1 kg laundry:

water hardness	lightly soiled items	normally soiled items	heavily soiled items	yielding*
soft	55 ml (50 g)	74 ml (67 g)	110 ml (99 g)	15 kg
slightly hard	74 ml (67 g)	101 ml (91 g)	138 ml (124 g)	10 kg
hard - very hard	102 ml (92 g)	129 ml (116 g)	165 ml (148 g)	8 kg

*1 kg RADOMAT is sufficient at least for the indicated quantity of normally soiled laundry, for a load of one main-wash.

A pre-wash is not necessary as a rule, because starch and protein are being dissolved already at 30 °C.

Chemical characterisation:

Appearance:

White powder.

Ingredients:

Preparation from surfactants, builders, bleaching agents, TAED, optical dye, enzymes, auxiliaries and perfume. All surfactants are readily biodegradable.

pH value (1% solution):

√ 11: slightly alkaline
