

## MONIL<sup>®</sup>-FLÜ

Liquid leather for self service car wash facilities  
Item no. 4110

**MONIL<sup>®</sup>-FLÜ** is the ideal additive for air-drying of vehicles

- brilliant – due to its shine-effect vehicles appear like polished,
- gentle – a protection film preserves even heavily used varnish,
- highly concentrated – therefore extra economical in use.

**MONIL<sup>®</sup>-FLÜ** is the drying aid without technical utilities

- for a shining vehicle surface without calcifications,
- prevents dangerous greasy films on windshields.

### Areas of application and recommended dilution:

**1:250 – 1:500**

Dilute the product by hand or with the help of a dosage device and wet the vehicles evenly, ideally from the top. A very thin remaining water-film wipes off without leaving spots or streaks.

#### Characterisation:

##### Appearance:

Colourless liquid.

##### Ingredients:

Preparation from natural tensides, alcohols, auxiliaries and preservatives in water. Free of AOX, acids and alkalis.

##### pH value:

Acidic.

All ingredients are biologically degradable.

This product data sheet has been created according to the most current standard of technology. We do however not guarantee for correctness and completeness. No liability for damages due to improper application. update July 2015
