

MONIL®-ER

Highly concentrated industrial cleaner

Item no. 4140

MONIL®-ER, the economical cleaner for professionals in industry and craft

- removes oil, grease, waxes and resins,
- soot, combustion residues, brake- and printing-dust,
- avoids initial easily removable rust.

MONIL®-ER is applied for the multiple cleaning of

- machines, engines and gear-units,
- sheet metals and plates, profiles etc. before painting and grounding,
- ceilings, walls, vitrifications and industrial floors.

Areas of application and recommended dilution:

1:5 - 1:20

Cleaning of parts

Clean the dirty parts by dipping, spraying, wiping or in ultrasonic baths, rinse afterwards with fresh water. The treated surfaces are completely free of grease and are prepared for varnishing.

1:10 - 1:200

Maintenance cleaning of floors, machines etc.

Dilute the product, depending on the pollution and clean the dirty surfaces, parts or plants as usual by wiping, spraying or with a cleaning machine.

1:200 - 1:500

Cleaning of industrial plants and machine parts with high-pressure systems

Hot water increases the cleaning power.

Characterisation:

Appearance:

Yellow liquid with a mild odour.

Ingredients:

Preparation from natural tensides, builders, water soluble solvents, colour and auxiliaries in water. Free of AOX, formaldehyde and acidic components.

pH value:

Alkaline.

All ingredients are biologically degradable.

This product data sheet has been created according to the most current standard of technology. We do however not guarantee for correctness and completeness. No liability for damages due to improper application. update July 2015
