

MONIL®-AS

Industrial cleaner low-foaming with anticorrosive
Item no. 4160

MONIL®-AS, the low-foaming cleaning concentrate

- dissolves oil deposits, fats and industrial soiling,
- suitable for preparation of lacquering,
- outstanding protection on aluminium parts.

MONIL®-AS is a multi-functional cleaner for use in

- closed as well as open part cleaning equipments,
- floor cleaning machines, ultrasonic baths,
- high-pressure devices in storage areas, workshops, engineering.

Areas of application and recommended dilution:

1:5 - 1:20

Cleaning of parts

Clean the dirty parts by dipping, wiping or in ultrasonic baths, rinse afterwards with fresh water. The treated surfaces are completely free of grease and are prepared for varnishing. For the cleaning of aluminium parts in closed and open cleaning machines, we recommend to use a concentration of 1:14 (approx. 7%).

1:20 - 1:100

Maintenance cleaning

Dilute the product, depending on the pollution and clean the dirty surfaces, parts or plants as usual by wiping, spraying or with a cleaning machine.

Hot water increases the cleaning power.

Characterisation:

Appearance:

Colourless liquid with a mild scent.

Ingredients:

Preparation from alkalis, builders, corrosion inhibitors and auxiliaries in water. Free of AOX, formaldehyde and solvents.

pH value:

Alkaline.

All ingredients are biologically degradable. Fast separating in oil separators.
