

SAN-PLUS® D

Cleaner for printing plates and film development devices

Item no. 4250

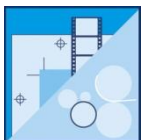

SAN-PLUS® D is a special product for print shops and photo labs

- cleans printing plates, cuvettes and development devices,
- especially gentle to material and skin,
- helps to maintain the value of capital equipment.

SAN-PLUS® D powerfully removes in an environment-friendly manner

- residues of development-processes,
- lime and crystalline deposits,
- algae and organic soiling.

Areas of application and recommended dilution:

Undiluted - 1:5

Cleaning of printing rolls

Apply the diluted product by spraying, let it act a few minutes and wipe off the released dirt with a soft cloth or a sponge and rinse with fresh water.

1:5 - 1:10

Cleaning of cuvettes

Fill the diluted product in the cuvettes. Let it act a few minutes and rinse with fresh water several times.

1:10 - 1:20

Cleaning of printing plates and film development devices

Fill the diluted product in the development device and let it circulate for approx. 30 minutes at 30 °C. Afterwards rinse at least twice with fresh water.
