

MONIL®-FR 3000

Highly concentrated wheel rim cleaner

Item no. 4310

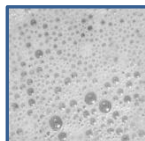

MONIL®-FR 3000 is the powerful cleaning concentrate for the cleaning of

- all acid-resistant aluminium and steel rims, wheel covers etc.,
- thoroughly removes grime, dust, oil and environmental pollution,
- persistent soiling and burnt-in brake dust.

MONIL®-FR 3000 saves working time and costs during cleaning

- recommended for manual and automatic application,
- saves hard going, mechanical reworking,
- does not harm lacquer, rubber and synthetics.

Areas of application and recommended dilution:

1:3 - 1:20

manual wheel rim cleaning:

Dilute the product and apply it with a compression sprayer, foaming device or brush, let it act for 5-10 minutes, scrub and rinse or jerk off afterwards with plenty of water or use a high pressure cleaner or wash up by hand respectively.

Unsuitable for chromium-plated aluminium rims!
