

MONIL®-PAINTEX

Hand wash gel for varnishers

Item no. 4420

MONIL®-PAINTEX

- quickly removes paint and other persistent stains
- was especially developed for use in paint, print and workshops
- is used wherever traditional hand soaps fail

MONIL®-PAINTEX

- was formulated with natural graters made from olive pits
- does not clog up drains and is silicon- and microplastic free
- is very skin-friendly due to skin-protecting substances

Areas of application and recommended dilution:

Convenient handling is possible with our practical HWRsoap dispensers. Take out approx. 5 ml MONIL®-PAINTEX in your dry hands and rub them first of all without additional water. Then wash up the released dirt with water.

Warm water increases the cleaning power.

For optimal skin care for work-related, stressed hands, we recommend in the scope of a skin protecting plan:

For preventive skin-protection: HAND-SAFE (Item no. 4450)

For daily regenerative skin-care: HAND-CARE 24 (Item no. 2776)
