

B 100 T

Concrete separating agent

Item no. 4600

B 100 T is an environment-friendly concrete separating agent

- based on vegetable, renewable raw materials,
- biologically degradable oils and solvents from oranges,
- guaranteed free of mineral oils and aromatic solvents.

B 100 T is used as an essential product in the building industry

- concrete does not adhere to forms and formworks,
- high separating effect due to phased ingredients,
- builds a water soluble, washable protective coating.

Areas of application and recommended dilution:

- 1:4**
- Dilute the product approx. 1:4 and apply it on surfaces, which have to be protected like concrete formworks, concrete vehicles, devices etc.
- The use for concrete formworks to produce exposed concrete is to the own responsibility of the operator.
- The protective coating is water soluble, therefore concrete remains may be removed with a direct water jet or with a high pressure device.

Characterisation:

Appearance:

Yellow liquid with a mild scent of orange.

Ingredients:

Preparation from derivatives of fatty acids, solvents, emulsifiers, corrosion inhibitors and preservatives.

Free of CFC, CHC, aromatic hydrocarbons and mineral oils.

pH value:

Alkaline.

This product data sheet has been created according to the most current standard of technology. We do however not guarantee for correctness and completeness. No liability for damages due to improper application. update July 2015
