

ELOXIN

Facade cleaner with long term protection

Item no. 4660

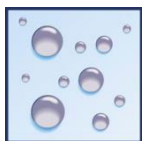

ELOXIN is an abrasive special cleaner with preservation

- for aluminium, anodised aluminium and stainless steel surfaces,
- varnished or powder-coated surfaces of aluminium,
- doors, window frames, jalousies and much more!

ELOXIN cleans, cares and preserves in one go

- effectively removes oil, fat and pigment soiling,
- contains special coating and caring components,
- offers long term protection to atmospheric conditions.

Areas of application and recommended dilution:

Undiluted

Shake well before use and apply ELOXIN undiluted and sparingly with a non fuzzling cloth or with a spraying device on the dry surface and polish manually or automatically (with a suitable pad).

Clean heavily soiled surfaces with a suited cleaning product (MONIL®-AFR 100) before applying.

200 – 500 g product is adequate for 10 m², depending on the pollution.

Characterisation:

Appearance:

White emulsion.

Ingredients:

Preparation from tensides, aliphatic hydrocarbons, caring substances (special oils and waxes), polishing agents, preservatives and auxiliaries in water. Free of AOX, acids, bases or aggressive compounds.

pH value:
