

## ALGEN-EX

Liquid algae annihilator

Item no. 4710

**ALGEN-EX** is ideal to annihilate and prevent algae effectively

- in swimming pools, fountains and decoration fountains,
- in car wash facilities or varnishing cabins,
- and in many other water cycling systems.

**ALGEN-EX** is effective on micro-organisms as well and is

- skin-friendly, pH-neutral, gentle to materials,
- chlorine compatible and free of heavy metals.
- Provides for an economical use of chlorine in swimming pools.

### Areas of application and recommended dilution:

#### Up to 1:100.000

Algae prevention:

If possible, when you allow fresh water to flow in, add for initial dosing 60 ml/m<sup>3</sup> into the water cycling system. Add weakly 10-15 ml/m<sup>3</sup> for continuous dosing.

When you fill in new water, because of evaporation or through back-rinsing of the filter, do not forget to add ALGEN-EX quantity-based. This is also valid, if the water cycling system is being diluted with rain.

Algae annihilation:

Apply a shock treatment with 100-200 ml/m<sup>3</sup>.

**Do not use for objects with drinking-water, fish or plants.**

#### Characterisation:

##### Appearance:

Colourless liquid with a mild odour.

##### Ingredients:

Preparation from cationic polymers and auxiliaries in water. Free of acids, alkalis, chlorine, dye and heavy metals.

##### pH value:

Neutral.

All ingredients are potential biologically degradable.

This product data sheet has been created according to the most current standard of technology. We do however not guarantee for correctness and completeness. No liability for damages due to improper application. update July 2015
