

WAFA-EX

Wall paint dissolving agent

Item no. 4750

WAFA-EX is the special dissolver to remove paint

- on wall surfaces, facades or brickwork,
- recommended for emulsion, oil and other facade paint,
- equally suitable for inside and outside use.

WAFA-EX is safe and reliable

- does not harm mineral or metallic undergrounds,
- is free of aliphatic, aromatic and chlorinated hydrocarbons,
- is biologically degradable.

Areas of application and recommended dilution:

Undiluted – 1:3

Apply WAFA-EX undiluted or up to maximal 1:3 with water diluted (depending on the composition and thickness of paint) with a brush, paint roll or spraying device to the surface, which has to be treated. Let it act for 2 – 3 hours, wherever applicable over night.

Afterwards jerk off the released paint with a high pressure cleaner, repeat the procedure if necessary.

Characterisation:

Appearance:

Colourless liquid with a characteristic scent.

Ingredients:

Preparation from water soluble solvents and thickening agents.

pH value:

Neutral (in aqueous solution).

This product data sheet has been created according to the most current standard of technology. We do however not guarantee for correctness and completeness. No liability for damages due to improper application. update July 2015
