

OELBINDER

Oil binding agent

Item no. 4780

OELBINDER is a neutral and safe absorption agent for

- trouble-free binding of oils, fats, solvents as well as
- liquid chemicals, acids and lyes,
- nearly dust-free, fire-proof, highly absorbing.

OELBINDER is used as a binding agent

- wherever oil and liquids can leak,
- in trade, industry, crafts and engineering,
- for hydraulics, mixing or filling systems...

Characterisation:

Appearance:

Light brown granulate material.

Grain size distribution:

98.3% between 0.5 – 4 mm ; 1.4% between 0.125 – 0.5 mm; 0.3% less than 0.125 mm (virtually dust-free).

Classification:

Not harmful.

Certificates of quality:

Meets the requirements for oil binding agents, publication of the Federal Minister for the Environment, Nature Conservation and Nuclear Safety from 12th March 1990 and 23rd April 1998.

Packaging:

Can (1 kg), bucket (10 kg), open head drums (30, 60, 120 kg).

Instructions for use:

Spread the absorbing agent on spilled liquids, oils etc., wait for a few minutes, physically remove it and sweep the floor afterwards.

1 kg OELBINDER absorbs approx. 1 litre of liquid.

Advice:

Keep OELBINDER dry.
