

ELEKTRONIC 2000

Electronic cleaner

Item no. 5050

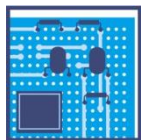

ELEKTRONIC 2000 is a specially developed cleaner for electronics

- quickly and spotlessly removes oil and fat soiling,
- loosens dust and dirt,
- suitable for manual removal of colophony based fluxing agents.

ELEKTRONIC 2000 is safe and reliable

- for maintenance work on computers, circuit boards, instruments and clocks,
- for treatment of switches, conductor boards, relays and contact spots,
- in fine mechanics, radio and TV-engineering.

Areas of application and recommended dilution:

Undiluted

Check the compatibility on a small area before you apply ELEKTRONIC 2000, spray afterwards on the surface, which has to be treated. In case of tenacious soiling, support the cleaning with the attached brush.

Certain synthetics may be harmed. A test to check the compatibility of synthetics is therefore recommended.

Characterisation:

Appearance:

Colourless liquid with a smell of benzine.

Ingredients:

Preparation from benzine and alcohols. Free of CFC and CHC.

This product data sheet has been created according to the most current standard of technology. We do however not guarantee for correctness and completeness. No liability for damages due to improper application. update July 2015
