

VS 100

Water-proof detention lubricant

Item no. 5090

VS 100 is a high-performance lubricant for the toughest requirements

- especially resistant to water and steam,
- has a high bonding and penetrating ability,
- long-term protection against abrasion and corrosion.

VS 100 is the indispensable helper for many applications

- suitable for lubrication of equipment parts in humid conditions,
- chains, ropes, cog wheels, bearings, spindles, machine joints,
- open gear units, guide rails, etc.

Areas of application and recommended dilution:

Undiluted

Shake VS 100 well before use and spray evenly on the cleaned parts and let it penetrate. VS 100 has very good viscosity properties at temperatures between -30°C and $+250^{\circ}\text{C}$.

Characterisation:

Appearance:

Yellow liquid.

Ingredients:

Preparation from mineral oils, synthetic oils, benzines and detention additives.

Free of CHC and CFC.

This product data sheet has been created according to the most current standard of technology. We do however not guarantee for correctness and completeness. No liability for damages due to improper application. update July 2015
