

## SORBI-ULTRA

Super Liquid Spill Absorbent  
with fresh scent  
Item no. 6550

**SORBI-ULTRA** is a special granulate to soak up aqueous liquids like

- drinks (juices, beer, wine, coffee, etc.) and foodstuff (soups, sauces),
- urine, vomit, blood and other bodily fluids,
- suitable for all surfaces.

**SORBI-ULTRA** forms a gelatinous solid upon contact with liquids

- which can be easily swept up or vacuumed away,
- can absorb liquids 100 times its weight,
- binds offensive odours and spreads a fresh lemon scent.

### Application:

Sprinkle **SORBI-ULTRA** on spilled liquids, wait for a few minutes, and simply sweep up the solidified mass.

Not suitable for acids, lyes, oils and organic solvents.

### Chemical Characterisation:

#### Appearance:

White granulate with lemon scent.

#### Ingredients:

Absorbent polymer sodium polyacrylate and fragrance.

Spilled product causes extremely slippery conditions when wet.
