

Bactoclean®-Fresh

Natural and all-round treatment for malodours

Item no. 8520

Bactoclean®-Fresh is the effective killer for all malodorous cases

- easy to use – easy to spray,
- long-lasting – micro organisms break down the cause effectively,
- can be dosed manually as well as automatically.

Bactoclean®-Fresh can be versatily used

- in hotel businesses and gastronomy,
- for vehicle preparation,
- for trash cans, press and garbage containers.

Areas of application and recommended dilution:

Manual application

Apply Bactoclean®-Fresh undiluted with a spraying bottle on the surfaces/materials which have to be treated. If required, repeat the procedure. Bactoclean®-Fresh does not make stains on fabrics like curtains or floors.

Automatic application

Set the automatic adjuster for garbage containers in the following manner: number of spraying per days between 4 and 12; quantity of Bactoclean®-Fresh per spray between 50 and 100 ml. Treat press containers according to requirements one to four times per hour.

Mode of action

The active micro organisms totally break down organic materials in an odour-less manner. Competing mechanisms of decomposition resulting in bad odours, will be effectively suppressed. The reproduction of the organisms depends on the availability of nutrients. The efficiency increases with elevated temperature and humidity. When all available organic materials are broken down, the organisms loose their activity.

Characterisation:

Appearance:

Yellow liquid with a fresh scent.

Ingredients:

Preparation from tensides, natural bacterial cultures, nutrients, preservatives and perfume in water.

pH value:

Neutral.

The included natural bacterial cultures are solely conform with genetically not modified, not pathogenic strains of class 1*. Cultures of yoghurt belong to the same class. Suitable for the application in hotel business and gastronomy.

*Classification according to the European association of biotechnology (EFB).
