

BRF 3000

Beer pipe cleaner

Item no. 2405

BRF 3000

- provides clean and hygienic beverage dispensing equipment,
- cleans even in hard water without leaving coverings behind,
- guarantees the optimum quality of beverages.

BRF 3000

- quickly cleans all beverage lines and dispensing equipment,
- completely removes residues of products, beer, hop and tartar,
- is extra powerful and highly concentrated.

Areas of application and recommended dilution:

1:50 – 1:100

Dilute BRF 3000 with water depending on the soiling. The cleaning of beverage lines in practice will be carried out with a mobile cleaning device or with installed circulating systems. Optimum results will be achieved with mechanical tools like e.g. spherical sponges.

After the cleaning there will be thoroughly rinsed with a sufficient quantity of fresh water. The maintenance cleaning is to be carried out if necessary. You will find technical advices in the technical rules for the cleaning of beverage dispensing devices (TRSK 501).

Do not apply the product to non-ferrous metals, aluminium or varnished surfaces!

Characterisation:

Appearance:

Yellow liquid with a mild odour.

Ingredients:
