# 4.1 Description of first aid measures

**General informations:** In case of persistent symptoms seek medical advice. Remove contaminated

clothing. In case of unconsciousness place patient into stable side position for transportation. Never give fluids or induce vomiting if patient is unconscious

or is having convulsions.

In case of inhalation: Provide affected person with fresh air and seek medical advice depending on the

symptoms.

In case of skin contact: Contaminated, soaked clothing should be immediately removed. Wash skin

thoroughly with soap and water. Immediate medical treatment required because

corrosive injuries that are not treated are hard to cure.
