SECTION 4. First aid measures

4.1 Description of first aid measures

General informations:	In case of persistent symptoms seek medical advice. Remove contaminated clothing. In case of unconsciousness place patient into stable side position for transportation. Never give fluids or induce vomiting if patient is unconscious or is having convulsions.
In case of inhalation:	Provide affected person with fresh air and seek medical advice depending on the symptoms.
In case of skin contact:	Contaminated, soaked clothing should be immediately removed. Wash skin thoroughly with soap and water.
In case of eye contact:	Immediately wash affected eyes for at least 15 minutes under running water with eyelids held open, consult an eye specialist.
In case of ingestion:	Rinse mouth immediately and then drink plenty of water. Do not induce vomiting. Seek medical advice at once. In case of spontaneous vomiting hold the head of the casualty low with the body in a prone position in order to avoid aspiration.
