

## MONIL®-PR 2000

Cover and Truck Cleaner

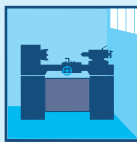

### Item no. 4020

#### MONIL®-PR 2000

- is the powerful industrial cleaner for trucks and tarpaulins
- can be used for both manual and high-pressure cleaning
- can also be used for the cleaning of motors and machines

#### MONIL®-PR 2000

- contains corrosion protection and can therefore be used on metal without hesitation
- easily removes (blossom) dust, insects, soot, road and engine dirt
- does not attack plastics and seals thanks to special care additives

### Areas of application and recommended dilution:

1:10	Covers, motors, machines (manually cleaning) Apply the diluted product by spraying or foaming, let it act for a few minutes and flush with fresh water. Brush covers extra.
1:20 – 1:30	Workshop floor cleaning
1:50 – 1:200	Covers, motors, machines with high pressure cleaner Cleaning of trucks, trains or planes manually or with high pressure cleaner
