

MONIL®-MA

Motor and car cleaner

Item no. 4060

MONIL®-MA

- is used for engine and vehicle washing and vehicle pre-treatment
- is also used for cleaning car interior such as cockpit, seats and open placement areas
- is label-free and yet powerful

MONIL®-MA

- effortlessly dissolves engine dirt, oils, grease, dust and soot
- removes insects and nicotine stains in no time at all
- protects paintwork, metals, seals, rubber and fabric covers

Areas of application and recommended dilution:

- | | |
|--------------------|---|
| 1:3 | Motor wash
Apply the diluted product with a compression sprayer, let it act for 5 minutes and flush the released soiling with a high pressure device. |
| 1:20 – 1:30 | Cleaning car interior
For the cleaning of synthetics, windows, fabrics etc. apply the diluted product with a sponge, let it act shortly and wipe with water. Suck seats and carpets with an extraction spray purifier.. |
| 1:15 | Insect removal
Apply by spraying, let it act shortly and wash up with a high pressure device or in the car wash facility. |
| 1:200 | Car wash
Apply or foam up the cleaning solution. Let it act a few minutes, brush the surfaces shortly and flush with fresh water. In case of heavy soiling, use a more concentrated dilution. |
