

ELEKTRO 2000

Electrical equipment cleaner

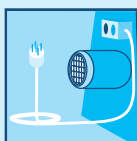

Item no. 4580

ELEKTRO 2000

- shows outstanding dissolving performance
- removes vegetable, animal and mineral oils and fats
- dissolves grime and coal abrasion

ELEKTRO 2000

- cleans electric motors, generators and electrical systems in industry
- protects insulating varnishes and paints and is neutral towards metals
- is free of water and electrolytes and therefore causes no rust development

Areas of application and recommended dilution:

Undiluted

Apply ELEKTRO 2000 by dipping, spraying, wiping or in ultrasonic baths. Well suited for machine-parts-cleaner (closed systems). Do not heat above 40 °C during application.

Chemical characterisation:

Appearance:

Colourless liquid with a smell of benzine.

Ingredients:

Preparation from aliphatic hydrocarbons.

Free of CFC, CHC and aromatic hydrocarbons.

ELEKTRO 2000 is hardly flammable.
