

MONIL®-STR

Self-acting stone cleaner with chlorine

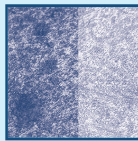

Item no. 4700

MONIL®-STR

- is the highly active special cleaner for mineral surfaces
- automatically cleans terraces, stairs, paths, tombstones, walls, stone fountains and roofs
- removes dirt with deep effect, also on facades and in silicone joints

MONIL®-STR

- reduces the risk of accidents caused by slippery surfaces
- serves to maintain the value of the treated surfaces
- is ideal for cleaning before sealing with MONIL®-STV (item no. 4705)

Areas of application and recommended dilution:

Pure

First, prepare the surface by removing coarse dirt. Apply MONIL®-STR undiluted using a spraying device. Wait a few minutes for MONIL®-STR to be absorbed and then rinse with plenty of water. Using a high pressure washer or scrubbing improves cleaning effectiveness.

Warning: Could cause damage on dyes, paint and plastics! Test on a small hidden spot first.
Do not use on metals, fabrics, plants or animals!

Do not combine with acidic cleaners!
