

## COLOR-EX

Plastic cleaner and graffiti remover

Item no. 5520

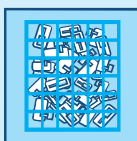

### COLOR-EX

- is the all-round special cleaner for paint residues and scribbling
- can be used for plastics, tiles, vehicles, metal and glass surfaces
- is also used for exterior cleaning of subways and trains

### COLOR-EX

- removes soiling by permanent markers, ball point pens, ink and glue remains
- dissolves two component paints and black heel lines
- can be washed off with water and is hardly flammable

### Areas of application:

Apply COLOR-EX by dipping, spraying or wiping on the dirty surfaces, let it act and wipe with a cloth. Clean treated or soiled floor surfaces with a suitable cleaner (eg. item no. 4060 MONIL-MA or item no. 4070 MONIL-WBR) to avoid slip hazard.

COLOR-EX is easily removable from textiles, surfaces etc. by washing.

COLOR-EX was developed for the application in public means of transport and vehicles, agencies in charge of turnpike maintenance, schools, catering businesses and in all areas where paint remains and scribbling have to be removed.

COLOR-EX is recommended in schools and gyms to remove black heel lines.

### Chemical Characterisation:

#### Appearance:

Colourless liquid with a mild fruity smell.

#### Ingredients:

Preparation from surfactants, water soluble and non-water soluble solvents.

Free of CHC and CFC.

All ingredients are biodegradable.
